PROFESSIONAL EXPERIENCE

Assistant to the Dean of Engineering | University of Colorado Boulder **March 2023 - Present**
Managing records and employee data for the College of Engineering. Coordinating communications to ensure team alignment and goal setting. Writing scripts to streamline day to day tasks with Microsoft Automate.

Founding Tutoring Specialist | Coditum / TeachForth **September 2019 - Present**
Began as an intern, assisting in course development and instructional design, before transitioning into a full teaching role. Delivering personalized 1-on-1 lessons in Java, C++, Python, Blender, and Adobe Creative Suite to students at all levels. Tailoring teaching methods to individual learning styles, fostering a positive and engaging educational experience.

Lead Teaching Specialist | SummerTech **June 2019 - August 2024**
Managed 10+ employees and taught Java programming and 3D modeling to students of all levels, adapting teaching methods to diverse needs. Mentored and supported peers, fostering a collaborative and innovative learning environment. Analyzed data from student performance over 6 months using statistical tools to tailor curriculum and improve engagement significantly.

PROJECTS & COURSEWORK

Volum: Radio Reimagined | New Venture Creation
Founder & CEO | volum.live | 2024 - Present

Developing a prototype video streaming application with React that empowers independent artists and brings listeners together. Focusing collaboration and developing a full venture roadmap for a final pitch in front of investor panel in a small team.

SphereSix | 2nd Place New Venture Challenge Winner
CTO | sixsphere-dd766.web.app | 2025

Collaborated in a team of two to develop a web application powered by React and Firebase, with a custom algorithm calculating carbon sequestration rates for any location, querying soil types and utilizing carbon market APIs.

SKILLS
